

Rescue Me

Escape With Romeo

Another day another song
another wish to carry on
When morning's cold I think of you
I hope my wish comes true
The night's too long
I lie in bed
something's wrong
I need the sun I need the light
I need someone by my side

rescue my love
rescue me

Another storm on the cruel sea
I hope that you will rescue me
another wind blows through my sails
It's gonna take me away

Winter's too cold to melt the ice
you've got the fire in your eyes
so make it warm

rescue my love
rescue me
