

White Room

Escape With Romeo

crystalclear when I look outside
there is nothing to say in the icecold time
no reason for laughin
a break in the rhyme
this is white room
this is white room
no sentimental tear when the walls are clean
and what happens it happens on the tv-screen
this is white room
what can I do
what can I do

I'm trembling like a spiral
crawling to the door
there is nothing to think
and nothing to look for
the white room the white room
people sleeping while I stay awake
and where love was in the air
now is that smell of hate
this is white room
so what can I do it is my own room
dance dance dance
till I get through
what can I do it is my own room
dance dance dance
till I get through

Feel the power

Dance in the white room
