

Better Things

Esmée Denters

I don't need to be forward
Not tryna scare you off
I might keep it a secret
I know what I want
You look like somebody
Someone I could trust
If you turn down the lights
Then we glow in the dark

Do you have a best friend
'Cause I could be your best friend
But one with the feelings
And so much more
You can be the rain
I could be the thunder
Boy, when we're together
It's the perfect storm

Ooh-ooh, come and pick me up
I'll be waiting outside, take me for a ride, and let me know
If it's cool, I could be [?]
Seven days of the week, yeah, we don't have to speak, no

I know some better things we could do
I know some better things we could do
Touching in ways that you never knew
I know some better things we could do

Better things, better things, yeah
Better things, better things, yeah

I'll always be loyal, keep you in check
As long as you know, I'm the best that you will ever have
Grass is greener where you are the rain
So let's get [?] prince

Ooh-ooh, come and pick me up
I'll be waiting outside, take me for a ride, and let me know
If it's cool, I could be [?]
Seven days of the week, yeah, we don't have to speak, no

I know some better things we could do
I know some better things we could do
Touching in ways that you never knew
I know some better things we could do

Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah

Do I have to spell it out for you
Show you what I have in mind
Imagine all the things we could do
If you just read between the lines

Ooh-ooh, come and pick me up

I'll be waiting outside, take me for a ride, and let me know
If it's cool, I could be [?]
Seven days of the week, yeah, we don't have to speak, no

I know some better things we could do
I know some better things we could do
Touching in ways that you never knew
I know some better things we could do

Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah

(Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah
Better things, better things, yeah)
