

Moonchild

Esmée Denters

Baby I'm a moonchild
Made up out of stardust
Livin' on a blue planet
Lookin' for a cosmic love

We're stuck
Between the earth and sky
Livin' in a body
Controlled by our mind
While lookin' for a meanin'
In this life
Don't you think it's kinda, crazy
I think about it all of the time

But I'm alive
And that's a miracle
Gotta keep
Remindin' myself
I'm not separate
From this world
No I am one with the universe

Baby I'm a moonchild
Made up out of stardust
Livin' on a blue planet
Lookin' for a cosmic love

I've been all around
Lost in the space
Tryna find a purpose
I'm tired of the chase

Am I awake or dreamin'?
'Cause I can't tell what's real or what is fake
I hear destiny is calling
And she's screaming out my name

Baby I'm a moonchild
Made up out of stardust
Livin' on a blue planet
Lookin' for a cosmic love
(I'm lookin' for a cosmic love)

That's all I need to know
Yeah that's all I need to know

We might feel invisible
We're not just the physical
(Not just the physical)
There's got to be something more
Something magical, spiritual
Supernatural

Baby I'm a moonchild
Made up out of stardust
Livin' on a blue planet
Lookin' for a cosmic love

(Baby I'm)
But I'm alive
And that's a miracle
Gotta keep
Remindin' myself
I'm not separate
From this world
No I am one with the universe

Baby I'm a moonchild
Baby I'm a moonchild
Baby I'm a moonchild
Baby I'm a moonchild

That's all I need to know
