

Proud

Esmée Denters

I never wanted to leave you
So wipe the tears from your eyes
'Cause I really hate to see you cry
And I gotta do this without you
It's time to find my own truth
Step out of the shadows and into the light

And when I'm far away from home
I'll take you with me wherever I go
You tell me everything you know
I know you're worried and you're scared
But it'll be worth it I swear
I wanna show you that I care

I'm sorry that I'm not around
Wish I could be there right now
'Cause I don't wanna let you down
I just wanna make you proud
I don't let you have your doubts
Promise it'll all workout
'Cause I don't mean to let you down
I just wanna make you proud

I know you're tryna protect me
But all I need you to do
Is trust me in me and I'll do the right thing
You know I'm a fighter
'Cause I've watched you be strong
Over and over time and time again
Oh-oh

I know you're worried and you're scared
But it'll be worth it I swear
I wanna show you that I care

Sorry that I'm not around
Wish I could be there right now
'Cause I don't wanna let you down
I just wanna make you proud
I don't let you have your doubts
Promise it'll all workout
'Cause I don't mean to let you down
I just wanna make you proud

Make you proud
Make you proud
Make you proud
Make you proud

I don't wanna let you down
I don't wanna let you down
I just wanna make you proud

You're never going to lose
I'll always be here for you
Through the ups and downs
I'll do it all to make you proud

Sorry that I'm not around
Wish I could be there right now
'Cause I don't wanna let you down
I just wanna make you proud
I don't let you have your doubts
Promise it'll all workout
'Cause I don't mean to let you down
I just wanna make you proud

Make you proud
Make you proud
Make you proud
Make you proud

I'm sorry that I'm not around
Wish I could be there right now
'Cause I don't wanna let you down
I just wanna make you proud
I don't let you have your doubts
Promise it'll all workout
'Cause I don't mean to let you down
I just wanna make you proud
