

The First Thing

Esmée Denters

Baby, talk to me.
Can you tell me honestly?
Am I crazy to believe something's wrong?
I can't read your mind.
Can you give me a sign?
Are you thinking things over,
Or do you need some more time?

I got my feet on the ground,
But you keep my heart in the clouds.

And everyday you the first thing I think of is you.
And every night I wanna kiss you,
I wish you were feeling it too.
And every dream is all about you.
Without you, I'm lost.
Baby, your everything that I want.

Tell me, what do you feel?
I need to know if this is real.
Every time you close your eyes,
Is it me you see?
I can feel you all around me.
Let me know what's it gonna be,
Cause I can be all that you need.

I got my feet on the ground,
But you turn my world upside down.

And everyday you the first thing I think of is you.
And every night I wanna kiss you,
I wish you were feeling it too.
And every dream is all about you.
Without you, I'm lost.
Baby, your everything that I want.

It doesn't have to be this way,
There's so much more that we can say.
I need to know that you want me to stay,
You know I wanna stay.

And everyday you the first thing I think of is you.
And every night I wanna kiss you,
I wish you were feeling it too.
And every dream is all about you.
Without you, I'm lost.
Baby, your everything that I want.

The first thing,
The last thing.
I think of is you.
