

# Change Is Coming

Estelle

Yeah, yeah, yeah (yeah, listen, listen, listen)  
It's all about to change, yeah (yeah)  
London, yeah, listen (woo, woo!)

From West Kent to West Coast to LA  
Yeah, with [?] beats bumpin' everyday  
Listen, yeah, yeah  
Start wildin'  
Listen, all I need is one microphone to one mic standees alone  
It's through this medium, I speak my mind  
Though I'm takin' everyday as blessed and everyday as dope  
Whether I'm wakin' up smilin' or I'm tired 'til the mornin'  
I have to keep it movin', I have to keep my shit correct  
'Member all the things you said I wouldn't get?  
[?], sing it

Why is everybody so envious?  
Because she in the worst planet, I'm takin' over the rest  
You'd be hard-pressed to find another girl like me  
Change the style a few times, I hold it down right, you see?  
From the bottom spittin', trust  
Believe me when I say that the moment that you started bridgin'  
It's here to stay back

Change is comin', shouldn't be the one that's found that  
You know you see the signs, you better get your act right  
Change is comin', shouldn't be the one that's found that (yeah)  
You know you see the signs, you better get your act right

Stand out and be counted  
You need to keep your head from out the mountains  
Just for all my people strugglin' to count some housin'  
Designed to keep you in tact, hustlin' to pay your rent (then what?)  
Then tell you that you can buy it then pile it at your expense  
So when you try and get help, they're gonna tell you to cross  
Charge ya all the way, entire too, you're always at a loss  
You start between the rock and [?]  
One heart is the other  
No escape for my little cousins and brothers  
It's time to change the way your life goes, right?  
From the age of 13, you got the choices you all like  
Don't let the past rule you (uh uh), choose your own rule too  
It's somethin' you know what I'm sayin'  
It's somethin' that you should do, this is true, listen

Change is comin', shouldn't be the one that's found that  
You know you see the signs, you better get your act right  
Change is comin', shouldn't be the one that's found that  
You know you see the signs, you better get your act right

So now there's planes hittin' buildings, five in the sky  
Lord help the children, tell them not to cry  
[?] that keep my heart right  
Lord, I need wisdom, teach me how to write  
Write to change lives, I'ma keep on steppin'  
Let me footprints show a little piece of heaven  
I'm strivin' to reach the seven on this [?]

To keep my family fed and people out the jail, listen

To all of your drama (all of your drama)

And all of your pain (and your pain)

If you keep on pressing (come on, uh)

You see what's the gain (see this)

And nothin' is promised (nah, nah, nah, nah, nah)

To anything, but one thing is set down and that is change

Change is comin', shouldn't be the one that's found that (shouldn't be, no)

You know you see the signs (you can see it), you better get your act right (you better get it right)

Change is comin', shouldn't be the one that's found that (you shouldn't be, no)

You know you see the signs, you better get your act right (get it right)

Get it right, get it right, listen (get it right, get it right)

See North London, yo West London, yeah East London, South London

Great Britain, come on, come on (get it right, get it right)

You're the soul queen!

Worldwide, NY, Philly, LA, say what?

Yeah, Africa (Africa), come on, yeah, what, ha, yeah

Say this that EST [?], hehe

You ready? You ready?
