

# One More Time

Estelle

You make me a pool  
Where you dip-dive in it  
You and a fool in it  
Wasn't a waterbed but it was one where you left makeup stains all over the place  
But I look good with a smile on my face

Lordy, lordy, lordy  
Ooh, we're spiritual  
So spiritual  
When you were a Ooh, in my physical  
Felt spiritual

Let's just run that one more time  
I want it back to back just one more time  
Make me spill all of my expensive wine  
Yeah, I want all of that just one more time

Wake me back up  
And I'm still floating yeah  
Skin still soaking wet  
We're making miracles 'cause you're walking on water yeah  
In this king bed  
California, yeah  
I could do all of this again, again

Lordy, lordy, lordy  
Ooh, we're spiritual  
So spiritual  
When you were a Ooh, in my physical  
Felt spiritual

Let's just run that one more time  
I want it back to back just one more time  
Make me spill all of my expensive wine  
Yeah, I want all of that just one more time

Lordy, lordy, lordy  
Almost makes me emotional  
Your physical  
You come close to hold me  
And this feels like a ritual  
Ooh, so sensual

Let's just run that one more time  
I want it back to back just one more time  
Make me spill all of this expensive wine  
Yeah, I want all of that just one more time

One more time  
One more time  
One more time  
I said one more time  
Make me spill all of this expensive wine  
Yeah, I want all of that just one more time  
(Run it back)
