Think Twice

When all is said and done And dead does he love you The way that I do Breathing in lightning Tonight's for fighting I feel the hurt so physical

Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around come around no more Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around no more

She spreads her love She burns me up I can't let go I can't get out I've said enough Enough by now I can't let go I can't get out

Wait till the day you finally see I've been here waiting patiently Crossing my fingers and my t's She cried on my shoulder begging please

Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around come around no more Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around no more

She spreads her love She burns me up I can't let go I can't get out I've said enough Enough by now I can't let go I can't get out

What is it you really want I'm tired of asking You're gone I'm wasted

When I showed up and he was there I tried my best to grin and bear And took the stairs but didn't stop at the street And as we speak I'm going down Cause she spread her love And burnt me up I can't let go I can't get out I've said enough Enough by now I can't let go I can't get out

Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around come around no more Think twice before you touch my girl Come around I'll let you feel the burn Think twice before you touch my girl Come around no more
