

# Keep Me From You

Eve

I don't care what they say, I'm in love  
There ain't enough money in the world  
Boy together I get high, smooches, our lips lock  
Together I get high, get high

So you want a black Porsche, knew I was in love  
Come on up a brown skin, yea give it up  
Fell so hard, won't you come and pick me up?  
Had a taste once and I can't get enough  
Mesmerized by the green in yo eyes  
Takin it back by the swag in yo stry  
I done got picked up by the love boat  
Eat it up, go hard with yo love girl

I don't care what they say, I'm in love  
There ain't enough money in the world  
Boy together I get high, smooches, our lips lock  
Together I get high, get high  
Nothing can keep me from you  
Nothing can keep me from you  
Keep me from you, keep me from you

You know that thief in the night  
Stole my heart so you better treat it right  
I ain't even wanna listen what my friends say  
'Cause I know that it's all just jealousy  
Is it punched or glow  
Or could it just be infatuation?  
Uh, whatever that is  
Time will tell, I don't care, let's live  
For the nightless world, alien love, wanna be your girl  
Milk chaser, stumbling,  
When I get next to you I'm mumbling  
If a chick try to step up we rumbling  
Want a future with you like remember boy

I don't care what they say, I'm in love  
There ain't enough money in the world  
Boy together I get high, smooches, our lips lock  
Together I get high, get high  
Nothing can keep me from you  
Nothing can keep me from you  
Keep me from you, keep me from you

You're so much more than a crush  
I'm down like the Chevy on dubs  
On lock, by the pioneer cuffs  
Your house is my home, let me get my stuff  
I'm sick, don't need no medicine  
Cupid shot me in the heart, veteran  
I'm gone, ain't no point of back your cold flow  
Let's make it last

I don't care what they say, I'm in love  
There ain't enough money in the world  
Boy together I get high, smooches, our lips lock  
Together I get high, get high

Nothing can keep me from you  
Nothing can keep me from you  
Keep me from you, keep me from you

Nothing can keep me from you

I don't care what they say, I'm in love  
There ain't enough money in the world  
Boy together I get high, smooches, our lips lock  
Together I get high, get high  
Nothing can keep me from you
