## **Until I Get Caught Red Handed**

## **Every Avenue**

You expect, you presume
I expose you the truth
Can't you see that it's not what it seems

I keep my secret safe with me In a box beside the sea Faces pale, faces strange Pages erased

Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Get caught red handed

In a crowd, all afraid Curious to the daze Steady hand, color-stain Walk away

Darling, let the monsters breathe And don't worry what you'll see Faces cold, face the dark We all fall apart

Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Get caught red handed

Aa-ah... Woahaa-ah

You expect, you presume
I expose you the truth
Can't you see that it's not what it seems

I keep my secret safe with me In a box beside the sea Faces pale, faces strange Pages erased

Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Who-ah, in the shadows I have stood Who-ah, until I get caught red handed Get caught red handed

In the shadows I have stood Yeah, yeah Until I get caught red handed Get caught red handed
