

## Bored Stiff

### Every Time I Die

I was wrong, close one  
I am wrong, I said it I was wrong  
I mean it, did it stick?  
Come down from there  
Come down from there

I know it's hard to swallow  
When your head is overturned

Hey there girls, I'm a cunt  
There was venom in the heart of the dagger  
They found a worm in your pearls saying prayers  
All is finally infested, unless we blossomed in the cankerous air

Then only hell can help us  
I got off  
Just once, you were right  
I admit it

We weren't soft, just better  
Do you flinch?  
Keep that radio dry

I'm sorry you were all mine  
I'm sorry you were all mine

Let the boys find your body  
Let love gnaw the meat from your bones  
Admit the arrows, suffer the hot flash  
We come together now, all together now  
All together now, all together now
