

Some Nights Last for Days

Example

You owe it to yourselves to spend one long night together
Again and again and again and again, haha

We could spend our life in this room
Make it a holiday (A holiday)
I only need one night with you
'Cause some nights last for days (Yeah, you know they last for days)
You can make a sad song happy with that there perfect face (Perfect face)
I only need one night with you
'Cause some nights (Some nights)
Some nights last for days

Like Reebok, you're a classic
The type you stop in traffic
And I don't mean to be graphic
Once I sink it like Titanic
Eurasian or Hispanic, I can't tell but girl, you're magic
In fact you're kinda like young Janet 'fore she had the plastic
Surgery, never occurred to me, I could fall in love so quickly
I'm fallin' like so deeply, let's go divin' in the deep sea
I don't know what you been told by Entertainment Weekly
But we're locked inside our lair, we ain't coming up for air, don't care

We could spend our life in this room
Make it a holiday (A holi-holiday)
I only need one night with you
'Cause some nights last for days (Some nights last for days)
You can make a sad song happy with that there perfect face (Perfect face)
I only need one night with you
'Cause some nights (Some nights)
Some nights last for days

Mama told me, "Don't put all your eggs inside one basket"
But, man, this girl gives me the go-go like Inspector Gadget (Go gadget)
A go-go gadget third leg, I'm thirsty and I don't care
If it's Monday or Thursday, we sendin' it in the worst way
Or the best way, like chess play
It's your move like West Wing
Some next ting like Westworld
No Spice Girl, my best girl
[?]
You can blame that good testosterone
Locked inside our lair, we ain't coming up for air, don't care

We could spend our life in this room
Make it a holiday (A holi-holiday)
I only need one night with you
'Cause some nights last for days (Some nights last for days)
You can make a sad song happy with that there perfect face (Need your perfect face)
I only need one night with you
'Cause some nights (Some nights)
Some nights last for days

Ayy, ayy, ayy, ayy, ayy, ayy, ayy
Some nights last for days
Ayy, ayy, ayy, ayy, ayy, ayy, ayy

Some nights last for days
Ayy, ayy, ayy, ayy, ayy, ayy, ayy
Some nights last for days
Ayy, ayy, ayy, ayy, ayy, ayy, ayy

So now we got the time to kill
I know you got a lot to fill
But let me get inside your head
You got the brains like Dr. Phil
Your love is like the type on lots of films
I wanna shake the hands of all your exes
Just as I expected, yep, you got the skills
Not to say you're just a stunner
Graduated with the honours
Veni Vidi Vici, yeah, you came and saw and conquered
Wear your name across my t-shirt like I'm sponsored
And we go 'til we're unconscious
Crucify the bedroom, ultraviolet, Pontious Pilate
Here's my number, dial it when you need
I'll line it, you can lead
Divide it then we'll bleed
Take five so we can breathe
Oh, hi, it's Mr Gleave
And I never will leave you
The vibe is so see-through

So see-through
So see-through, so see-through, so see-through
And some nights last for days
Love you baby
