Fade

Can't escape this emptiness holding me inside
Never felt like this so hopeless, hopeless
From the shadows looking outward
I'm a light that fades into this deep abyss where I feel hatred
at myself
Save me from myself

Filter away this confusion I feel
Filter away the bullshit
Filter to what's real

Take away this emptiness freezing me inside
Never felt so fucking worthless, worthless
Time goes by like flashing streaks of light that burns your eyes
to ashes
Make this stop save me from myself
Someone please save me from myself

Someone save me from this nightmare
Numb sensation makes me so scared
Like a cut that won't stop bleeding
And I know I'm going down
Night and day constantly shaking
Razor's edge away from breaking
Someone wake me from this nightmare
Thought that I was stronger
