Failure

Found a dog downstairs
locked him with the bikes
cried till he went hoarse
scratched the door to shreds

Did no one tell you how
she'd leave you in this town
with her dog trapped downstairs
He'll die with no one there

Locked the dog back in
turned the heater on
smelled the sour milk
felt the floor above

Did no one tell you how
she'd leave you in this town
with her dog trapped downstairs
he'll die with no one there

Crawl cause you can't limp
howl cause you can't speak
leave cause you don't care
run let the dog die
found the note upstairs
torn up in the trash
said she'd flown to Spain
special one-time fare

Left with some old friend
always just a friend

Crawl cause you can't limp
howl cause you can't speak
leave cause you don't care
run let the dog die

Did no one tell you how
she'd leave you in this town
with her dog trapped downstairs
He'll die with no one there

Crawl cause you can't limp
howl cause you can't speak
leave cause you don't care
run let the dog die
