

No Other Love

Faith Evans

No other love
Im thinking of,
No other love can measure
No other love
Im thinking of,
No other love can measure

Pretty little baby, you have given me good times
And all I wanna do is make it better
I could never tell you that I didnt love you now
Cause no other love can compare to you, you

No other love
Im thinking of,
No other love can measure
No other love
Im thinking of,
No other love can measure

This is on and on, and I must confess
Youre the only lover who can love me like no other
Theres only one man who can give me what I need
Youve got me going crazy
Baby give your lovin' to me

If only you could see
That you are all I need
I cant walk away
I cant walk away, hey

No other love
Im thinking of,
No other love can measure
No other love
Im thinking of,
No other love can measure
(Repeat)

Baby its only you Im thinking of
No other love can measure
Baby its only you Im thinking of
No other love can measure
(Repeat)
