

Reasons

Faith Evans

Give me the reason
That I want...

- Give me the reason to love you
And I want to love you more
Oh give me the reason to love you
And I want to love you more

Sitting in here thinking about you
And all the joy you bring oh baby
I just can't live without you
Cause your love means everything

Honey I've got to tell you
Just how you make me feel
Oh baby my love will never leave you
Cause I will be right here

And you know that I would do anything
Not to lose your love, not to lose your love
Cause your love gives me the reason
And I want you more each day

And you know that I would do anything
Not to lose your love, to lose your love
Cause your love gives me the reason
And I want you more, I need baby

- When I can't seem to find my way
You brighten up my darkest day
The reason to love you more

[Repeat 2 til end of song]
