

The Sidewinder Flux

Falling Up

This dark star comes home.
Every word I meant to say.
In the courts when they said. Choking on all of your words.
In and out sleepless nights, so far from her.

Breathe in slowly, you will forget.
They stole me in the night, while you slept.
Breathe in slowly, you will forget.
They stole me in the night, while you slept.

Wait for poison streams.
Drink in laced with strobing streets.

Breathe in slowly, you will forget.
They stole me in the night, while you slept.
Breathe in slowly, you will forget.
They stole me in the night, while you slept.

Breathe in slowly, you will forget.
They stole me in the night, while you slept.
Breathe in slowly, you will forget.
They stole me in the night, while you slept.
Breathe in slowly. You will forget...
