

# Perfect Tense

Fallulah

Oh Oh Oh Oh

We dream in color all the time  
All the time  
You don't believe me  
Don't believe me  
Don't believe me

But when we open up our eyes  
It's black and white  
Do you read me?  
Do you read me?  
Do you read me?

I don't wanna be here  
Let's go out and see the world  
Let's go out and meet the world  
Let's forget that we got hurt  
Oh Oh  
Come my baby  
Let's go out and see the world  
Let's go out and meet the world  
Let's forget that we got hurt

We mess up all the time  
Tonight we'll get it right  
Doesn't matter if they laugh at us  
We don't have to be so serious

We don't make perfect sense  
We live in the perfect tense  
Doesn't matter if we take a fall  
All that matters is we get back up  
Oh Oh Oh Oh  
All that matters is we get back up

You say you're sick of wasting time  
Wasting time  
Don't you tease me  
Don't you tease me  
Don't you tease me

Cause then you go and change your mind  
You fall behind  
There's no reason for these walls to be a prison

I don't wanna be here  
Let's go out and see the world  
Let's go out and meet the world  
Let's forget that we got hurt  
Oh Oh  
Come my baby  
Let's go out and see the world  
Let's go out and meet the world  
Let's forget that we got hurt

We mess up all the time

Tonight we'll get it right  
Doesn't matter if they laugh at us  
We don't have to be so serious
