

We Need Love

Family of the Year

All of the times they made you sad,
All the times they made you feel bad,
All the times they made you feel like
they didn't have time for you,

All of the times they made you mad,
All the time you'll never get back,
All the times you sat and thought
that I'd never do this to you

Well you'd be right for letting it all go tonight,
But there's something better in between leaving and wanting to fight

We need love,
Even when you say we're not good enough
We're good enough
Say it's so,
All we need to do is be strong enough
To take your love,
And make it grow

All the times they shut you down,
Twisted your words around,
All the times they made you feel
like "What am I gunna do?"

All the times they made you mad,
All that time you'll never get back,
All the times you sat and thought
that I'd never do this to you

Well you'd be right for letting it all go tonight,
But there's something better in between leaving and wanting to fight

We need love,
Even when you say we're not good enough
We're good enough
Say it's so,
All we need to do is be strong enough
To take your love,
And make it grow

But it's a long hard road,
When you act so cold,
Maybe you can but you don't let it show
But it's a long hard road,
When you act so cold,
I can't save your soul
If you can't you gotta let it show

We need love,
Even when you say we're not good enough
Oh, we're good enough
Say it's so,
All we need to do is be strong enough
To take your love,
And make it grow
