

# My Emotional Way

Fancy

I'm so lonely hurting inside  
Still I'm waiting  
Why did you fight  
I'm sorry  
I'm so sorry  
Now I'm ready, but you'll have to choose  
Yeah I tell you, I'm not scared to loose  
You're lying  
Yes, you're lying  
Time flies around you  
You wanna be free  
And everything a brand new start  
But now things are changing  
And I'm gonna see  
You're trying hard to keep us apart

My emotional way  
A story in my mind  
Keeps me praying this day  
Gonna leave one love behind

My emotional way  
A story tells me why  
Choose your love come what may  
Stay with me or say goodbye

No more secrets hiding from me  
No more loving I live in a dream  
Forever  
Yes, forever  
Time flies around you  
You wanna be free  
And everything a brand new start  
But now things are changing  
And I'm gonna see  
You're trying hard to keep us apart
