

# We Can Move A Mountain

Fancy

We can move a mountain  
If we really try

Truthfulness, sincerity  
Are virtues in decline  
Loneliness, anxiety  
Are growing all the time.

We can help each other  
If we find a way to share.  
Let us show each other that we care.

We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try  
We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try

The world we know is changing fast,  
It really blows your mind;  
Let us show compassion for  
The people left behind.

You may think you're winning  
But the race is never won:  
For us, the human race has just begun.

We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try  
We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try

Believe in yourself  
Let's work together,  
We can move a mountain

We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try  
We can move a mountain,  
We can touch the sky,  
We can make a difference  
If we really try

We can move a mountain.
