

Better Surrender

Far

Take it away, or give it to me
You got no control, so you better believe
Walking around like you were on fire
You're out in the cold

You never know, you never know
You better surrender, just let go
You will never know

Kissin the kids, out for the night
Havin a drink and you're feeling alright
Fix up the moon, date with the sun
You're bought and you're sold

You never know, you never know
You better surrender, just let go
Cos you never know

Surrender
You got no control
So you better let go
