Far

Living in the world of the "i don't understand"

Treating our machines better than we treat our Friends
Enough! does it ever stop? will we build until we Drop?
We'll learn to feel no pain
We'll manufacture love and then
Hideaway

Do you really think that there's evil in a drug?
Did you read a book about a guy that turns into a bug?
You brain-skinny guinea pig rent-a-mentailty
Verbal gerbil, kid
You should know
We use to get loose, screw, make up excuses for it,
Do a little more
To forget the things we did

Real eyes realize real lies
