

I Will Never Let You Down

Fastball

It may sound funny
I don't have a lot of money
But I will never let you down
When everything is breaking
The enemy is taking the town

I'll be fighting those demons
They'll be kicking and screaming
I will throw them to the ground
I'm here to protect you
To love and respect you
And I will never let you down

I hope you won't hate me
Don't underestimate me
I'll always do the best I can
My mind's a bit hazy
I might just drive you crazy
Remember I am only a man

I'm not too pretty
Once you reach the nitty-gritty
I'm not the nicest guy in town
I might forget what I say
But at the end of the day
I will never let you down

I hope you won't hate me
Don't underestimate me
I'll always do the best I can
My mind's a bit hazy
I might just drive you crazy
Remember I am only a man

I'm not too pretty
Once you reach the nitty-gritty
I'm not the nicest guy in town
I might forget what I say
But at the end of the day
I will never let you down
