## A Pleasant Shade of Gray Part III

## **Fates Warning**

There's a cloud above us And there's a shadow on us And outside of us Hangs this shade of gray

Rain falling Hours crawling All around this shade of gray

There's a chill about us
And there's a sadness with us
And deep within us
Lies this shade of gray

Rain falling
Hours crawling
All around this shade of gray
This shade of gray
"rain's falling, hours crawling"
This shade of gray
"rain's falling, hours crawling"

There's a space beside us And there's miles between us And all around us Grows this shade of gray

Rain falling Hours crawling All around this shade of gray

Rain falling
Hours crawling
All around this shade of gray
This shade of gray
"rain's falling, hours crawling"
This shade of gray
"rain's falling, hours crawling"
