

A Therapy For Pain

Fear Factory

I welcome death with open arms
Her soft breath and simple charm
Wandering through memories
Takes my hand for me to see

Tried so hard
Tried so hard

Echoes of innocence
All my thoughts into descent

Tried so hard
Tried so hard
Tried so hard
Tried so hard

When we finally reach the end
She lets go of my hand
Walking into realms of light
There will be no death tonight

Tried so hard
Tried so hard
Tried so hard
Tried so hard
