

Oxidizer

Fear Factory

The smallest part
a single spark
can lay this world in ashes

The fire inside
burns my mind
set to destroy the masses

Burn
this
world
down

Consuming tide
floods my mind
filling my soul with rage

Just one spark
in my heart

to damn this world in flames

My burning fate
seething with hate
to set this world on fire

All will burn
nothing spared
from my incineration
Decimate
to devastate
path of annihilation

My burning fate
seething with hate
to set this world on fire

Set this world on fire
Wake of the Oxidizer
