

## Baby Be Simple

Feist

In and out  
That's the way in  
I saw an old sign  
When my world was way down  
Quiet on the streets  
So I climbed the stairs  
To the rarified air  
I've been on fire  
Made from my thoughts  
I thought up my life by  
Out then back in  
That's the way to begin  
But I had to climb down  
Into today  
And give up the pain  
I held myself up by  
Baby, be simple with me  
Out, thicker skin  
That's no way to begin  
Come with your true arc  
To fall all the way down  
Like an empire  
Into a kingdom of guts  
To become a rooftop  
I built me from the bedrock  
Made me right up  
Ignited little tunes  
While the wind was still  
Trying to find a way to tell you  
If or not the true arc  
Is even there  
Or on a pillow of air  
I'll rip me apart by the lore  
Cause to become that rooftop  
I had to fall all the way down  
Baby, be simple with me
