

I Will

Ferlin Husky

Well you think I'll be lonely you think I'll be blue
Well you think that I'll worry worry over you well I will yes I
will
Well you think that I'll miss you miss you night and day
You think I will walk the streets while you're away yes I will
you know I will
I'm not a bitty shame to say that you're the one I love
From now until eternity I swear by stars above
Well you think I'll try to get you back try with all my might
You think I'll keep on crying when you're not in sight well I w
ill yes I will

I'm not a bitty shame to say that you're the one I love
From now until eternity I swear by stars above
Well you think I'll always be the way I've always been
You think that if you'll ask me to I'll come back again yes I w
ill you know I will
