

This is the end of days  
Will you defend what you believe?  
Cast off your evil ways  
Or joining the practice to deceive

Forget what you're fighting for  
As they die on your television  
Win the peace to win the war  
Did you make the right decision?

God bless America  
How can you sleep at night?  
God bless America  
If you refuse to fight  
God bless America  
Just another casualty  
God bless America  
You know that freedom's not free

Hear the chorus of the dead  
Sacrificing for their nation  
Heed the voices in your head  
It's time for the next invasion
