

# Whiskey in the Spa

Fiddler's Green

I'm givin' the town a reddish paint you know  
So far away from my home  
Cracking the bottle a swig is all I need now or never  
I drink like a fish and I'm swilling down my dreams  
They stare at me naked  
Tiddly tipsy pissed and drunk I wish  
You would be here on my side

And when I awoke in burning daylight bright  
All the pretty women left me and got out of sight so  
You can't take it with you better live it up  
Guess that was a dream but jacuzzi dreams will never stop

So I drank them pretty whiskey in the spa  
And a million women sang with whiskey in the spa  
So I drank them pretty whiskey in the spa  
Someone help me out now there's still whiskey in the jar

I'm drunk as a lord and oh so far from home  
Come be the way now for me  
Hitting the bottle for me there's just one way  
To get over cold nights

So won't you take a look I'm on a spree in this jacuzzi  
We're having a drink till the moon will sink and swoon  
The moon must swoon
