

# Flotation Therapy

Fightstar

We have come this far  
Just crawling on our knees  
Standing in the wake  
Is just enough to feel scared (of the aftermath)  
'Cos we are

It's all gone dark  
Twenty feet underground  
You're still alive  
Why don't you ever learn  
You just lost control  
Falling all the way down

I was carrying you  
So your footsteps disappeared  
Save a bitter taste for this emergency break  
'Cos we are

It's all gone dark  
Twenty feet underground  
You're still alive  
Why don't you ever learn  
You just lost control  
Falling all the way down
