What It Is to Burn

She burns

Today's on fire, the sky is bleeding above me And I am blistered, I walk these lines of blasphemy Every day and still

Like a bad star, I'm falling faster down to her She's the only one who knows what it is to burn

I feel diseased, is there no sympathy from the sun? The sky's still fire but I am safe in here From the world outside

So tell me, what's the price to pay for glory?

Like a bad star, I'm falling faster down to her She's the only one who knows what it is to burn

Today is fire and she burns, today is fire And she burns, she burns, she burns, she burns She burns, she burns, she burns

Like a bad star, I'm falling faster down to her She's the only one who knows what it is to burn
