

Don't It Feel Empty

Firefall

Big man big wheel livin' in luxury
Big talk big time money to burn
Big plans bid deal women of mystery
Keepin' you company too
Don't it feel empty to you?

Small time small change
Star of the local scene
Small talk small town
King for a day
Small fry small stage
Clutching your little dreams

Now what you gonna do?

Last time last chance
So many things you've been
Last word last game
Last time around
Last dime last dance
Ladies and gentlemen
You're back on the streets again now

Don't it feel empty somehow?
Don't it feel empty to you?
Don't it feel empty?
Don't it feel empty?
Don't it feel empty to you?
