

Get You Back

Firefall

Took a while to see the light
You had me so confused
Attitude has set me right
And I'm tired of being used

I never meant to dissatisfy, babe
You know I hate to lose

Don't know why I went along
Thought it would never end
Never could treat you wrong
Never really could pretend

Always out to disqualify, babe
Just trying to be your friend

Now you want to take me back and
Swear you're gonna cut some slack
And I'm trying to get you to take it back
Ooh, I'm gonna get you back

Took a while to see the light
You had me so confused
Attitude has set me right
And I'm tired of being used

I never meant to dissatisfy, babe
You know I hate to lose

Don't know why I went along
Thought it would never end
Never could treat you wrong
Never really could pretend

Always out to disqualify, babe
Just trying to be your friend

Now you want to take me back and
Swear you're gonna cut some slack
And I'm trying to get you to take it back
Oh I'm gonna get you back

Get you back baby, ooh
Get you back, yeah
Get you back baby, yeah
Get you back baby
