

Love That Got Away

Firefall

I can't believe it
I never thought I'd see your smile again
Now that I see it
I get that same old feelin' back again

I don't know how long you'll stay
It doesn't matter anyway
I say welcome home to the love that got away

I got your number
This time I know exactly what to do
Sometimes I wonder
(I wonder)
What made life worth livin' without you
(I wonder)

I don't know how long you'll stay
It doesn't matter anyway
I say welcome home to the love that got away
Got away, hey hey

All of those so called love affairs I had before
They only made me think about you more and more and more
Well I guess they never knew I was wishing they were you
Oh, they were you

I've got a fever
Nothin' I've done has done a thing for me
I'm a believer
(Believer)
I believe that love is liberty
(Believer)

I don't know how long you'll stay
It doesn't matter anyway
I say welcome home
To the love that got away
Got away, hey hey got away got away got away
Love that got away...
