

## Quite Like You

Firefall

You got me goin' out of my head  
You are simply great in bed  
Stick with me baby, stick like glue

No one can love me quite like you  
No one can love me quite like you

You got me goin' out of my body  
You are more than just a hobby  
You leave me floating when we're thru

No one can love me quite like you  
No one can love me quite like you

My soul flies through clear skies  
Leave behind our physical form  
Our laughter rings long after  
I have been reborn, reborn

You got me reelin', ooh the feelin'  
Givin' me emotional healin'  
You leave me floating when we're thru

No one can love me quite like you  
No one can love me quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you  
Quite like you...
