

Sad Ol' Love Song

Firefall

It's been a long time baby
Let's make it worthwhile
Say somethin' cute and show us your new style
You've come back to me and I'm lettin' you in
And for a while life's gonna go again
It's happened before so many times
That I never do know
It's happened again and again and again
Till I'm never quite sure
Just how much more I'll endure
I ain't no blind man baby
I can see it'll probably happen again
Still feel the same and it'll hurt me again
It's a sad ol' Love song mama and it's askin' for some
Up here alone in front of everyone
You talked me into lettin' you go
So many times before
I never really learned to say no to you baby
Never wanted you just to go
Goin' crazy slowly but surely baby
Goin' crazy slow but sure
