

Take Me Back

Firefall

Living without you girl
Is too much like a bad dream
Having you turn me away
Just tears me apart at the seams

Even if it takes a miracle
To keep our hearts from running away
One more chance is all I'm asking for
I still need you now in a special way

Take me back
Take me back for old time sake
Take me back
Take me back, my love can't wait
Take me back
Yes I'm begging you
I was a fool, baby won't you
Take me back
Where my heart belongs
Take me back
Take me back and build a love so strong
Take me back
Yes I'm begging you
I was a fool, baby won't you take me back

I remember easy times
When we sang the same song
I just couldn't settle down
Now all of the good times are gone

Even if it takes a miracle
To keep our hearts from running away
One more chance is all I'm asking for
I still need you now in a special way

Take me back
Take me back for old time sake
Take me back
Take me back, my love can't wait
Take me back
Yes I'm begging you
I was a fool, baby won't you
Take me back
Where my heart belongs
Take me back
Take me back and build a love so strong
Take me back
Yes I'm begging you
I was a fool, baby won't you take me back

Baby take me back
Baby take me back
Baby take me back
Baby take me back

Take me back back baby
Take me back back baby

Baby take me back
Take me back back baby
Take me back back baby
Baby take me back
