

# What Kind of Love

Firefall

Come with me, my lady  
And let me love you now  
This night won't last forever  
I spent my day dreaming  
Anticipating how  
All the waiting is over

Tell me, what kind of love's on your mind? (What kind of love?)  
Having you would be so divine

I know that you want me  
Don't say that it's too late  
Let's make this night complete  
So give your love to me  
Don't let desire escape  
The secret's ours to keep

Tell me, what kind of love's on your mind? (What kind of love?)  
Having you would be so divine

No one will know  
No one will care  
It's just you and me and the moment that we share  
Deep in your eyes  
I see it there  
You know the secret will be ours, do you dare?

Let's stop the pretending  
We know what love's about  
It's a matter of time  
In the flash of a heartbeat  
I feel you reaching out  
Your body speaking to mine

Tell me, what kind of love's on your mind? (What kind of love?)  
Having you would be so divine

Tell me, what kind of love's on your mind? (What kind of love?)  
Tell me, what kind of love's on your mind? (What kind of love?)  
Tell me, what kind of love's on your mind?  
Tell me, what kind of love's on your mind?

Tell me, what kind of, what kind of, what kind of  
What kind of love's on your mind?  
(What kind of love?) Tell me, tell me  
(What kind of love?) Tell me
