Five Times August

Baby, come inside you'll never know what you might find.

Maybe you'll find that there are better days if you leave these days behind.

So baby take my hand and let me show you, let me show you

Cause I love the way you love the way I love you

And I love the way you love me too

And I love the way we take away each other

Into places that erase away our thoughts, our cares, our dreams or scares

And I never want to let you go

Because I love the way you are

So Baby, you live and learn, you crash and burn, and c'est la v ie

But it's crazy to me, you'll never see, no you'll never see wha t you mean to me

But baby take my hand and let me show you

Cause I love the way you love the way I love you

And I love the way you love me too

And I love the way we take away each other

Into places that erase away our thoughts, our cares, our dreams or scares

And I never want to let you go

Because I love the way you are
