

# Hit Me Like You Did the First Time

Flaming Lips

Go, people wanna know  
All the pleasures of  
I've got my favorite place  
You know just what to say  
Hit me like the first time

All of your friends go there  
They're not like me  
I got my favorite place  
You know just what to say  
Kill me like you did the first time

Come on now (3x)  
Hit me like the first time

Mount this heavy snow  
It's warm like a winter coat  
That's my favorite place  
'cause you know just what to say  
Kiss me like you did the first time

Come on now (8x)
