

I Was Zapped by the Lucky Super Rainbow

Flaming Lips

Lucky

Now you're right in front of me
Like a bolt of lightning, you
chase the storms away

Rainbows

Though you never really know
Sometimes they come to you
Luck is sick that day

Now you're a man

You're a lucky man
You got a bunch of lightning
super rainbow
shootin' out of your hand
(now you're a man)

It even makes the fucked up days feel like part of the plan

(now you're a man)

Now you're a man

You're a lucky man

(You're a lucky motherfucker!)

Now you're a man

You're a lucky man

(now you're a man)

you got a bunch of lightning
super rainbow
shootin' out of your hand

It even makes the fucked up days feel like part of the plan

(now you're a man)

Now you're a man

You're a lucky man

(you're a lucky motherfucker!)

Lucky

Now you're right in front of me
Like a bolt of lightning, you
chase the storms away

Rainbows (something about you)

Though you never really know (something about you)

Sometimes they come to you

Luck is sick that day

Yeah...

got a bunch of lightning...

Ooooh oh
