

## It's Summertime

Flaming Lips

It's summertime - and I can understand if you  
Still feel - sad -  
It's summertime and though it's hard to see its true  
possibilities -

When you look inside - all you'll see  
When you look inside - all you'll see  
Is a self-reflected inner sadness -  
Look outside - I know that you'll  
Recognize it's summertime
