

I Believe It

Flatfoot 56

I believe in second chances
I believe it
Living as the time clock dances
I believe it
Throw your fears into the ocean
I believe it
It's hard to stop what's put in motion
I believe it
Foolish minds do all the talking
I believe it
Gotta shut your mouth and start to walking
I believe it
Know the ground that you are standing
I believe it
Gotta get up if you crash your landing
I believe it
Something's wrong with the world today
when liars only make the front pages
Your hollow ways will be brought to light
Why do we trade for wrong all that is right?
I believe we have a purpose
I believe it
That love can kinda be a circus
I believe it
This prison train is bound for glory
I believe it
That winners never own the story
I believe it
I believe in a hope that is true
And I believe in a purpose we did not deserve
Who gave them right before wrong?
Who gave us joy for this song?
I believe in second chances
I believe it
Living as the time clock dances
I believe it
Throw your fears into the ocean
I believe it
It's hard to stop what's put in motion
I believe it
