

# Tears Will Dry

Fleur East

Teardrops they fall like rain  
But I'm not crying, oho, oho  
I'm breaking off those chains  
You got me tied in, oho, oho

One way ticket out of this heart breaking city  
Get ready, karma is giving  
And don't come knocking  
When you feel lonely  
You're not the only one out there for me

Tears will dry  
And I'll forget the way you call my name  
Just give me one more night  
And I'll be dancing in the dark again

I love the smoking lights  
I'll love whoever, oho, oho  
And I don't miss those nights  
They do it better, oho, oho

One way ticket out of this heart breaking city  
Get ready, karma is giving  
And don't come knocking  
When you feel lonely  
You're not the only one out there for me

Tears will dry  
And I'll forget the way you call my name  
Just give me one more night  
And I'll be dancing in the dark again

I'm gonna dance all night  
You're not gonna catch me crying  
I'm gonna dance all night  
You're not gonna catch me crying

I'm gonna dance all night  
You're not gonna catch me crying  
I'm gonna dance all night  
You're not gonna catch me crying

Tears will dry  
And I'll forget the way you call my name  
Just give me one more night  
And I'll be dancing in the dark again

Tears will dry  
And I'll forget the way you call my name  
Just give me one more night  
And I'll be dancing in the dark again

I'm gonna dance all night  
You're not gonna catch me crying  
I'm gonna dance all night  
You're not gonna catch me crying
