

Buy Us Time

Framing Hanley

Maybe there's a place where sick doesn't exist.
And cancer lacks the heart beat that God forgot to give.
Let me take you there.
We can get away from here.

Don't try to slow me down
I'm running out of time and I do not have much of this to lose.

If you're still there, hold on a little longer.
I was too scared but I should've been stronger.
All I really know is if I could buy us time,
we could start this over
build another life.

Dressed in the sheen
The soldier of a war of no one wins
But you fought the beast and every answered strength you had to
give.
Can we go now, can we get away from here.

Don't try to slow me down
I'm almost out of time and I've got everything to lose.

If you're still there, hold on a little longer.
I was too scared but I should've been stronger.
all I really know is if I could buy us time,
we could start this over
build another life.

I'll scream till my heart explodes,
if that's what it takes to bring you home.
I don't know which way to go
without you here to guide me along.

If you're still there hold on, hold on.
I was too scared, and I know
Well I know I was wrong.
All I know is tonight, well I feel alive.
And so I could buy us time
to build another life
to build another life
I feel alive
We could build another life
We could build another life
We could build another life
