

Even Though I Knew

Frankie Cosmos

We never talked about a thing, never went through it
Even though I knew you weren't feeling true to me

The train crawls like our phone calls
I let it go on far too long
I would've let it go on forever

In the window my reflection will show
It has grown since you have known it

Right after this I might ask for it
Babe you know I'd climb under your fence for 25 cents
I know it's bad but you know I would
15 dogs on a wall, 10 seltzers deep in it all

Check the eggs that none are cracked
I know you can remember that
