

Dancin Around

Frankie J

You got me feeling, that love is feeling
You got me dancing around and around and around
You got me feeling, that love is feeling
You got me dancing around and around and around

I met a girl last night
And I just don't wanna to be another number yeah
That's something special in her eyes
Is that something that I wanna discover
So I won't hesitate, hesitate
I know what a girl make her mine
And I wont' be afraid
It's something that I feel inside

Uuh I'm dancing around, you got me dancing around
Uueooh I'm dancing around, you got me dancing around

Head over hills and it feels unreal
I don't have to hide it oh no no
I just want to be nasty you
'cause you don't understand all the things that you do to me
So I won't hesitate, hesitate
I know what a girl make her mine
And I wont' be afraid
It's something that I feel inside

Uueooh I'm dancing around, you got me dancing around
Uueooh I'm dancing around, you got me dancing around

(2x)

I feel so weak I cannot speak
I feel a love spell coming down

[Chorus (2x)]
